

ARC400IJ2

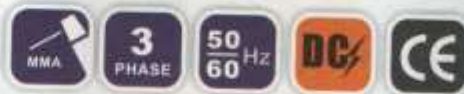

C N-RYH-F05J-A0

Features :

1. Digital Meter to PreSet and Display Welding Current.
2. Arc-Force for Anti-Sticking.
3. Hot-Start (0-130A) to Start the Welding Arc Smoothly.
4. VRD Function--Safe for Welders.
5. Remote-Control Function Optional.
6. Outstanding Arc Stability with Low Spatter.
7. Wide Range for Input Voltage: 380V ±15%.
8. Dust-Free Cooling System with Upgraded Duty Cycle.

* Input Voltage Optional : 3P 220V±15%.

Applications:

- Education
- Maintenance, Repair
- Fabrication
- Ship Building / Installation
- Construction
- Pipe
- Foundries

Specification :

V_{IN} AC380V±15% 3P	Input Frequency 50/60	A_{IN} 27, 6A	IP1 Input Power 18, 2KVA	I₂ Current range 40-400A	V_o 66V	DUTY CYCLE 60%	η 85%
Φ 0. 93	IP Protection Class IP21	Weight 33kg	Electrode Diameter 1. 6-5. 0mm	Dimensions 550×280×545 (mm)			

Standard Accessories:

500A+50mm²×3m
