

ARC630I

C N-RYH-F07#-A0

Features :

1. Multi-Functional: MMA and Carbon Arc Gouging.
2. Digital Meter to PreSet and Display Welding Current.
3. Arc-Force for Anti-Sticking.
4. Hot-Start (0-160A) to Start the Welding Arc Smoothly.
5. VRD Function--Safe for Welders.
6. Remote-Control Function Optional.
7. Outstanding Arc Stability with Low Spatter.
8. Wide Range for Input Voltage: 380V \pm 15%.
9. Dust-Free Cooling System with Upgraded Duty Cycle.

Applications:

- Education
- Maintenance, Repair
- Fabrication
- Ship Building / Installation
- Construction
- Pipe
- Foundries

Specification :

| | | | | | | | |
|---|------------------------------------|---------------------------------|---|---|-----------------------------|--------------------------|---------------------------------|
| V_{IN} AC380V \pm 15% 3P | Input Frequency 50/60 | A_{IN} 53, 1A | IP1 Input Power 36KVA | I₂ Current range 50-630A | V_o 85V | DUTY CYCLE 60% | η 85% |
| ϕ 0.93 | IP Protection Class IP21 | Weight 54kg | Electrode Diameter 1. 6-6.0mm | Dimensions 670 \times 320 \times 640 (mm) | | | |

Standard Accessories:
